Professional Summary

Fullstack Developer in high-performance applications and distributed systems. With a degree in Computer Science, I develop ecosystems that integrate front-end, back-end, and data architecture. I implement automation pipelines, handle large volumes of information, and integrate artificial intelligence into software solutions. I manage Linux infrastructure and service orchestration in hybrid and AWS environments, ensuring system availability through active monitoring and observability.

Technical Stack

Languages: Python, Java, JavaScript / TypeScript, PHP, C, Dart, HTML, CSS

Backend: Spring Boot, JPA/Hibernate, FastAPI

Frontend: React, Angular, Flutter, Dash Bootstrap, Vue

Data & BI: Pandas, Plotly, Power BI, SQL

Machine Learning / Computer Vision: OpenCV, Keras, Keras-FaceNet, MTCNN

Databases: PostgreSQL, MySQL, MongoDB, Oracle Database

DevOps: Docker, Kubernetes, Linux, Git, Zabbix, Proxmox, Bash, PowerShell

Quality Assurance (QA): Web Scraping (Selenium, Scrapy)

Others: Airflow, Ollama

Relevant Projects

AI-Powered RPG Orchestration System - Collaborative Project

Currently under development, this project provides the technological foundation for an AI-driven RPG system. I work on the web interface and backend development, structuring APIs and databases that provide character sheet data and game states for agent consumption. The infrastructure is managed via Docker to ensure consistency across environments.

Relevant Projects

E-commerce REST API: Java, Spring Boot, PostgreSQL

- Developed a REST API for product management
- Implemented CRUD endpoints and MVC-based architecture
- Integrated with PostgreSQL database

Facial Recognition System, Python, OpenCV, Keras-Facenet

- User identification system using computer vision
- Real-time image processing
- Implementation of a facial detection and recognition pipeline

Automated Web Scraping, Python, Selenium, Scrapy

- Automation of web navigation and interaction with web pages
- Data extraction and processing directly from web interfaces
- Data manipulation and preprocessing

Education

Bachelor's Degree in Computer Science

Federal Institute of Minas Gerais (IFMG)

Graduated: 2025

Technical Degree in Computer Maintenance and IT Support

Federal Institute of Minas Gerais (IFMG)

Graduated: 2014

Languages

Portuguese: Native

English: Intermediate

Spanish: Basic

Certifications

- Oracle Cloud Database Services 2025 Certified Professional
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Oracle Data Platform 2025 Certified Foundations Associate
- Amazon Web Services (AWS): Essencial
- Banco de Dados SQL
- Orquestração de Containers com Kubernetes
- Docker
- Git e Github
